

SCHEDULE "A"

Sheet 1 of 2

1. Areté Associates Patent Application re: Fingerprint-Acquisition Apparatus for Access Control; Personal Weapons and Other Systems Controlled Thereby

US Patent 5,812,252 Issued 9/98

2. Areté Associates Patent Application re: Systems & Methods w/Identity Verification by Comparison & Interpretation of Skin Patterns such as Fingerprints.

US Patent 5,909,501 Issued 6/99

US Patent 6,636,621 issued 10/03

European Patent Application
No. 97941692.2, Filed 9/97

Canada Patent Application
No. 2265575, Filed 9/97

3. Areté Associates Patent Application re: Economical Skin-Pattern-Acquisition Apparatus for Access Control; Systems Controlled Thereby.

US Patent 5,963,657 issued 10/99

US Patent 6,115,484 issued 9/00

Canadian Patent Application
No. 2265581, Filed 9/97

Mexican Patent Application
No. 993420, Filed 9/97

4. Areté Associates Patent Application re: Systems & Methods w/Identity Verification by Streamlined Comparison & Interpretation of Fingerprints and the Like

US Patent 6,356,649 issued 3/2002

Australian Patent 741925 issued 3/2002

Canadian Patent Application
No. 2264867, Filed 4/98

Chinese Patent Application
No. 98800809.2, Filed 4/98

SCHEDULE "A"

Sheet 2 of 2

European Patent Application
No. 98915481.0, Filed 4/98

5. Areté Associates Patent Application re: Divisional Application re: Fingerprint-Acquisition Apparatus for Access Control; Personal Weapons and Other Systems Controlled Thereby.

US Patent 5,937,557 issued 8/99

6. Areté Associates Provisional Application re: Sensor orientation, circuit-board construction, remote devices, and interactive enrollment in skin-pattern print acquisition.

All applications have been abandoned

7. Areté Associates Provisional Application re: Apparatus and method for sensing fingerprints (Knuckle lock)

All applications have been abandoned

8. Areté Associates Patent Application re: Divisional Application re: Fingerprint-Acquisition Apparatus for Access Control; Personal Weapons and Other Systems Controlled Thereby

All applications have been abandoned

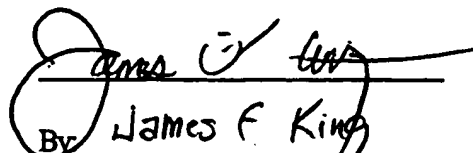

9. Bioscrypt Inc.: Pattern-Based Interchange Format

Canadian Patent Application
No. 2397576, Filed 08/02

PCT Application
No. PCT/CA2003/001218, Filed 08/03

The undersigned confirm that this is Schedule "A" referenced in an agreement between them and signed by ARETÉ ASSOCIATES, INC. on the 29th day of November, 2004.
